THESE DOCKS are conveniently situated in Yokohama harbour and the attention of Captains and Engineers is respectfully called to the advantages offered for Docking and repairing Vessels and Machinery of every description.

The plan and tools are of recent patterns for dealing quickly and cheaply with work and a large stock of material is always at hand, (plates and angles all being tested by Lloyd's surveyors).

Two powerful Twin Screw Tugs are available for taking Vessels in or out of Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable of lifting 40 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that of any port in the world.

A large mooring basin is available alongside our own works for mooring vessels whilst under repairs.

THE NEW AMERICAN MINISTER.

MR. C. R. CRANE'S APPOINTMENT.

The Chicago Daily News of July 16 publishes the following messages from Washington:—

Charles R. Crane, of the Crane Company of Chicago, has been offered the post of minister to China by President Taft and has accepted the offer. The administration is now engaged in approaching the Chinese Government as to the acceptability of the appointment. Mr. Crane has been in Washington most of the week and it was at a recent social function attended by well-known friends of the President that the appointment was tendered and accepted.

The post of Minister to China has given President Taft more trouble than any patronage he has had to dispose of since he took office. He has regarded the position as one of the most important to be filled by his administration and has sought to find a high-class business man to fill the place, believing that the influence of the United States in China, already great, could be augmented not only along diplomatic but commercial lines as well. Several well-known public men have been approached by the President during the last few months with a view to ascertaining whether or not the Chinese post would be accepted if offered.

After several declinations the Chinese Government became apprised of the situation and there was danger for a time of grave diplomatic difficulties owing to the fact that Chinese pride showed signs of becoming wounded. The President, however, impressed it upon the Chinese representatives here that it was his desire to secure the highest type of American to fill the place, and that made it difficult to secure the right man. Many of those to whom he offered the position were compelled to decline for purely business reasons.

At noon to-day the President gave out a statement from the White House announcing the acceptance of the appointment by Mr. Crane and referring to him as one of the "leading business men" of the country. Stress is also laid upon his knowledge of the Russian language, which, owing to the interest of Russia in Manchurian affairs, will be valuable to him.

Mr. Crane is first vice-president of the Crane Company. President Taft regards him as one of the ablest business men in the country and declared to-day that he was delighted to be able to secure such a man for the Chinese mission, which he regards as one of the most important in the diplomatic service.

Mr. Crane has had large experience in foreign affairs, has been seventeen times to Russia, and speaks the language fluently. His uncle, Prof. Williams, was professor of Chinese at Yale and wrote a book on China.

In view of the active policy of the state department in endeavouring to secure commercial opportunities in China, the President has endeavoured to secure exactly the right type of representative for that mission and expressed himself to-day as feeling sure that Mr. Crane would be able materially to further the interests of the United States in this wide field for development.

CHICAGO OPINIONS.

Definite news from Washington, D.C., that the President had decided to appoint Mr. Crane Minister to China prompted statements of appreciation in Chicago. Attorney Walter L. Fisher, who is in touch with the situation, had this to say:

"If Mr. Crane has consented to be United States Minister to China, President Taft and the entire country are to be congratulated most heartily. From a telegram I have received from him I conclude that he has finally agreed to serve. I understand that great pressure has been brought to bear on him since William Kent suggested his name to the President some weeks ago. Mr. Crane's qualifications for this post are extraordinary. Ever since his early manhood he has been intensely interested in Asia, its people and its institutions, and he has a familiarity with them which is rare indeed for an American. His interest in Russia has long been known, but few even of his friends have appreciated fully that his interest was far more in the oriental phases of Russian affairs than in the European phases.

"More than a quarter of a century ago Mr. Crane was one of the few Americans or Europeans who had penetrated into Central Asia and the interest then aroused has increased with his years. He is not only familiar with the social and political conditions of the Far East, but has a practical knowledge of the commercial conditions. These facts, coupled with his high personal character and his sincere devotion to the public welfare, make him an ideal man for what is not only probably the most important diplomatic position to be filled by President Taft but is also probably the most difficult to fill properly.

"Only those who have some knowledge of the personal and business sacrifices which Mr. Crane is prepared to make at the urgent solicitation of the president can appreciate what this acceptance will involve. Once more Chicago has reason to be proud of the public spirit of her successful men of affairs."

A NATIVE OF CHICAGO.

Charles Richard Crane was born in Chicago on August 7, 1857. He is the son of R. T. Crane and Mary Prentiss Crane. His education was received in the public schools of Chicago, and when his school days were over he entered the employ of the Crane Company. In 1881 Mr. Crane married Miss Cornelia W. Smith, of Paterson, N. J. He served in various capacities with the Crane Company, learning the business step by step, until in 1894 he became first vice-president of the company, ruled by his father.

Mr. Crane served as president of the Municipal Voters' League for a time and is at present one of the directors of the National Bank of the Republic. He is a member of the American Economic Association and belongs to the Chicago Literary, Chicago, Calumet, University, Chicago Athletic and Ingham clubs. He is independent in politics. His home is at 2350 Michigan Avenue.

Mr. Crane has travelled much. In February, 1904, he gave \$10,000 to the "young empress" fund for Russian soldiers and sailors, through Count Rostoff, chancellor of the empire, and was the recipient of the grateful thanks from the Empress.

GOVERNMENT OUTWITTED BY A CHINESE WOMAN.

San Francisco, July 14.

The United States must admit defeat at the hands of a wily Chinese woman or be placed in the unenviable position of separating a man and his wife. The only hope of avoiding either of these results is ability to establish to the United States District Court that Ye Yum committed a fraudulent marriage with Wong Heung of Oakland for the sole purpose of invalidating an order of deportation against the woman, issued on the authority of the immigration department at Washington.

The case is the first of its kind and involves the question of whether there is a difference in the status of an alien admitted to the United States for the purpose of marrying a person legally therein and the woman who secures a residence here by stealth and, to avoid deportation, marries after the Government has directed that she be sent back home.

In this respect the case will establish a precedent and is being watched by Chinese in all parts of the United States, as well as by Government authorities.

Ye Yum was brought to the United States as a slave girl within the last three years. Her entry was secured by fraudulent representations, which were not discovered by the Government until she had been here for some time. She was then arrested.

Being comely, according to the Chinese standard, her owners fought hard to secure her release, but the Treasury Department ruled that she must be deported.

During the time of her incarceration she was almost daily visited at the Alameda County Jail by members of the Chinese ring believed to be engaged in importing their countrywomen for immoral purposes. Little attention was paid to these visits by the jail officials, and they did not know that Wong Heung was one of her daily callers, until it was announced that she had married Wong, while an inmate of the jail.

Wong is entitled to remain in this country. The law reads that the wife of an alien, entitled to remain in the United States, is guaranteed a home with her husband.

Immediately on the announcement of the wedding the Government directed that the woman be sent back to her native land. But before this could be done an attorney, employed by her husband, supposedly, but, according to the Government, by persons interested in keeping her here, applied for a writ of habeas corpus in the United States District Court for her release on the ground that her marriage entitled her to remain with her husband.

To this Assistant United States Attorney Ben McKisley demurred on the ground that the marriage was for the purpose of nullifying the order of deportation, and therefore was fraudulent.

Immigration officials declare that if Mrs. Wong is successful, another way will be opened for the ring engaged in Chinese slave trade, for it will be an easy matter to find a Chinese willing to go through the form of a marriage ceremony.

THE "ERROL" WRECK.

SCENE OF THE DISASTER.

Further particulars regarding the wreck of
the Norwegian barque *Errol* on Middleton
Reef show that the spot where the vessel came
to grief is a danger well known to mariners,
and at low water the coral edges are visible.
The sea breaks heavily, and the current sets
very strongly in the vicinity. Captain Joseph
Hawkins, one of the best known of island
navigators, who is now at Sydney, told an
Evening News reporter that he was wrecked
on Elizabeth Reef, the next-door neighbour of
Middleton Reef in the year 1870, when the
Colonist was lost. He describes Middleton
Reef as being of horseshoe shape, with the
apex to the north-west. The lagoon inside
provides an anchorage for small vessels. He
was surprised to read the statement that some
of the survivors were working on the beach,
for to his knowledge there is no beach, not
even a sand bank, and while the place teems
with fish, the only shellfishing existing are
clams.Questioned as to whether a provision, boat
should be moored there, the captain replied:—
"Not unless the Government exercise super-
vision. The boat would have to be inspected
periodically, to see that the mooring chains
did not rust, and cause the craft to break adrift.
If she did, and was blown on to the coral she
could not last very long."He said that the New Zealand Government
had a proper system in vogue, and maintained
depots on all the outlying islands, even so far
as the Auckland Isles and Macquarie Island.

NAMES OF THE DROWNED.

The names of those lost in the *Errol* disaster
were given as follows:—Captain E. Andreason, master, 34 years of
age, belonging to Mandal—the ship's port of
registry in Norway.Dina Andreason, wife of the captain, and a
few years his senior. She also came from
Mandal.Elsie Andreason, 8 years of age, eldest
daughter of Captain and Mrs. Andreason.Elevine Andreason, 6 years of age, second
eldest daughter of the captain.Sigurd Andreason, aged 4 years, the only son
of Captain and Mrs. Andreason.Astrid Andreason, a baby girl, 13 months
old.Otto Olsen, mate of the *Errol*, 43 years of
age, and a native of Tonsberg, Norway.Edvard Ulrikson, the second mate, 27 years
of age, belonging to Christiania, Norway, and a
relative of the owner of the *Errol*.Ole Edvardson, sailmaker, belonging to
Tonsberg, Norway.Omund Andreason, ordinary seaman, 10 years
of age, belonging to Lillesand, Norway.Sverre Olsen the deck boy, 17 years of age,
a native of Lillesand, Norway.James William, A.B., 40 years of age, a
native of Nova Scotia.A Frenchman, whose name is unknown, but
who was called "John" by his shipmates,
about 42 years of age, A.B.An American A.B., who went by the name of
"Detmar," about 22 years of age.A German sailor called "German" by his
comrades, but whose name is unknown, an
A.B., about 13 years of age.A Scotch sailor, known on board as "Scottie,"
an A.B., about 52 years of age.Another ordinary seaman, whose name is not
known.

THE SAVED.

The full names of the survivors who have
arrived at Sydney are:—Anders Johansen, carpenter, about 58 years
of age, and a native of Norway. He joined the
vessel in 1907.Eilert Jensen, steward, about 28 years of age,
and a native of Norway. He signed on about
two years ago.Bjorne Ofsted, cabin boy, 18 years of age,
a native of Norway. He joined the ship in Jan-
uary, 1908, at South Shields.Patrick Palmer, an A.B., 51 years of age,
belonging to South Shields, who joined the ves-
sel in April last on the West Coast of South
America.John Lawrence, native of Sydney, N.S.W.,
about 28 years of age, who joined the *Errol* just
before she sailed from the West Coast of South
America in April last.

BACK FROM THE JAWS OF DEATH.

Snatched from the cold embraces of death,
the five survivors of the wreck of the Norwegian
barque *Errol* spent their first restful night since
their rescue in the Scandinavian Home, at
Miller's Point, Sydney. There, amidst the com-
forts of civilisation, tended by low-voiced,
gentle-hearted, motherly women, the poor seamen
began to make good recoveries from the horrors
of the past four weeks. Their sufferings have
been so intense, and so protracted, that no kind-
ness can be too great to atone in a measure for
experiences that few men might live through.On Wednesday all five of the men had to be
carried to the home, and only Patrick Palmer,
a strongly-built A.B., was able to walk about a
little. After a sleep in a comfortable bed,
attention to his hair and skin troubles, and
carefully-graduated feeding, Palmer was able
to go for a walk abroad this morning, and he
will be very soon physically fit again. Anders
Johansen, the elderly carpenter, and Bjorne
Ofsted, the ship's boy—a youth of 19 or 20
years—had also benefited considerably by the
rest, medical care, and comfort they had re-
ceived. Eilert Jensen, the steward, who is
shockingly emaciated, is still weak. The boils
and swellings on the joints of his fleshless
limbs are giving him much pain, and he has
to "pick up" a great deal more than his com-
panions.John Lawrence, the Sydneyite, who played
such a gallant part in connection with the
preservation for a long period of Captain An-
dreason's widow and four children, is in the
worst state of all the survivors. He is 28 years
of age, and only a splendid constitution could
have enabled him to pass through the fearful
 ordeal to which he was subjected. A wound
on the back of the head, behind the ear,is giving the chief trouble. He received the
injury while diving into the hold of the wreck
to procure food for Mrs. Andreason and
the little ones—children whom the sailor
loved as if they were his own. The waste
of flesh and impoverishment of blood, caused
by starvation and exposure together with
the effects of drinking salt water, result-
ed in a nasty abscess forming over the open
wound, and this occasioned Lawrence much
agony. Still, the joy of getting home to his
native city, and respite from the movement of
the sea, enabled the brave fellow to pass a fair
night, and awaken much more vigorous this
morning."None of them is in serious danger," re-
marked Dr. Marano, who was attending to the
five men when an Evening News reporter called
at the home. "The boils and swellings will
soon disappear as they begin to make new
blood and put on flesh again. Yes, they have
had a time, and it is evident that all of them
must have drunk salt water. The shock of the
experience, and the exposure to the winter
weather, have also contributed to their emacia-
tion, and exhaustion. Lawrence is worst off,
but his condition is not serious. We wanted
to send him to the hospital for treatment, but
his mother desires that he shall be taken to his
home in Paddington, and I will attend to him
there."In another room Lawrence was sitting up in
bed, with bandages around his head, and one
foot. Beside him was his mother and two sis-
ters, who had heard late last night of the
tragic events in which their relative partici-
pated. A brother was informed by a friend of
Jack Lawrence what had happened and he at
once went to the home. This morning Mrs.
Lawrence was in attendance early, and the
meeting between mother and son was affecting
in the extreme."Thank God, I have him ashore and that he
is not hundreds of miles away," said Mrs.
Lawrence, gazing lovingly on the shattered
wreck of her son, through a mist of tears.
"No, I cannot let him go to a hospital, or
anywhere else. I will nurse him myself till he
is well again."Lawrence was in pain; his head was trou-
bling him he said, and he was disinclined to talk.
"When I am better," he said, thickly, "I will
remember things clearly, and tell in detail what
happened on the wreck."The poor fellow's eyes were those of a man
who had looked on death in its most revolting
form. It was a look, noticeable also in the eyes
of the others when their thoughts reverted to
the sights and scenes at Middleton Reef. Only
the boy Ofsted, with the quick recovery of
spirits which is the prerogative of youth, could
raise a laugh, even as he nursed a wounded
foot—cut on the rocks—a swollen arm, and a
cracked mouth."No, it is no fun living on shellfish and wa-
ter," exclaimed Ofsted. "And it was cold—ah,
yes, so cold. We were wet most of the time,
and the wind it blew hard and cold through and
through us."The visitor, looking at the wasted frames of
the survivors, shuddered at the thought of their
torments of hunger, thirst, and cold, to say
nothing of the despair that must at times have
almost overwhelmed them.Later in the forenoon, Mrs. Lawrence con-
veyed her son to her home in Osmond-street,
Paddington.

Intimations.

FOUNDED IN HONOUR.

No doubt you have seen in the such papers
announcements as this—concerning some
medicine or other:—"If, on trial, you write that
this medicine has done you no good we will
refund your money."—Now, we have never had
reason to speak in that way concerning the
remedy named in this article. In a trade
extending throughout the world, nobody has
ever complained that our medicine has failed,
or asked for the return of his money. The
public never grumbles at honestly and skillfully
made bread, or at a medicine which really and
actually does what it was made to do. The
foundations of

WAMPOLE'S PREPARATION

are laid in sincerity and honour, the knowledge
of which on the part of the people explains its
popularity and success. There is nothing to
disguise or conceal. It was not dreamed out,
or discovered by accident; it was studied out,
on the solid principles of applied medical
science. It is palatable as honey and contains
all the nutritive and curative properties of Pure
Cod Liver Oil, extracted by us from fresh cod
livers, combined with the Compound Syrup of
Hypophosphites and the Extracts of Malt and
Wild Cherry. This remedy is praised by all
who have employed it in any of the diseases it
is recommended to relieve and cure, and is
effective from the first dose. In Anemia,
Scrofula, Nervous and General Debility, In-
fluenza, La Grippe, and Throat and Lung
Troubles, it is a specific. It is precisely what
it is said to be, and has won the confidence of
the public on that basis. You may resort to it
with a faith and hope that arise from the history
of what it has done for others. Dr. Thos. Hun-
stuck says: "The continued use of it in my
practice, convinces me that it is the most
palatable, least nauseating, and best prepara-
tion now on the market." One bottle proves
its intrinsic value. "You cannot be dis-
appointed in it." Sold by chemists throughout
the world.CHINESE INTERPRETER required—at
the Magistrate's Court, Sandakan, British
North Borneo. Qualifications are a know-
ledge of the Holois, Trechew, Iakaka, and
Cantonese dialects; a knowledge of the read-
ing and writing of the Chinese Characters is
desirable. English essential.Salary—\$50 per month Singapore Currency,
with an allowance of \$10 per month in lieu of
quarters.Applications to

Weekly, twenty-five cents (for cash only).

The Hongkong Telegraph

HONGKONG, SATURDAY, AUGUST 21, 1909.

THE DELINQUENCIES OF CHAIR BEARERS.

When a well known local resident goes to the trouble of bringing a couple of recalcitrant chair coolies before the Police Court on a charge of refusing hire it may be assumed that he has previously suffered from this form of contumacy. At some time or another nearly everybody in Hongkong has been made the victim of chair coolies and ricksha pullers who have hastily beaten a retreat if they suspected that the destination was any exceptional distance from their stand. And to be known or regarded as a payer of the exact legal fare is to be practically ostracised by the whole tribe of "Gondollers." That is so in the case of Europeans in particular, although it is a known fact that ricksha pullers, as well as chair carriers, are quite willing to accept without a murmur a reduced fare from their compatriots. Why this should be the case it is difficult to understand, especially as the coolies impudently demand "cumsa" even when excess fare has been paid. But when the licensed chair coolies go the length of absolutely refusing to accept hire, the matter becomes infinitely worse. Unfortunately it is not every one who has the time or inclination to spend a day at the Police Court in order to prosecute a pair of defaulting coolies. In the first place

it is not agreeable duty to appear at the Police Court at all on any account, nor is it pleasant to be regarded as a vindictive tyrant of the oppressed. Again, it takes a smart and athletic individual to catch the chair-bearers who by refusing a fare have contravened the terms of their licence, while it is equally difficult to identify the number of the chair. In the case of rickshas, these difficulties are increased tenfold, owing to the superior ability of the pullers to make themselves scarce. When the chance does occur of identifying the coolies, it is only the few, as we have said, who will proceed against the bearers and pullers by legal process for the reasons we have stated. Mr. Mowbray S. Northcote was therefore rendering a public service when he haled two chair coolies before the Magistrate yesterday and went out of his way to see them adequately punished. A fine of \$7.50 each was by no means harsh or unmerited, for it is common knowledge that these coolies are connected with guilds or societies which guarantee the members against loss should they have the misfortune to be brought up before the Court. What we should like to see the Magistrate do is to endorse their licences, so that on the second or third conviction for a like offence they should have their licences withdrawn and if the circumstances warranted they themselves should be deported. We believe that the Magistrates already possess the power to take such action as that indicated but at the moment we do not recall an instance in which the bench has taken advantage of their authority in this respect, more's the pity. So long as the coolies know that the payment of their fares is assured and that nothing further will happen so long as they continue to pick and choose their fares, keeping an eye for the over-greedy passenger who spoils the market by overpaying them. Witness the excitement there is among the chair-bearers and ricksha pullers when the American fleet is in port and the sailors are allowed shore leave. An American bluejacket is not allowed to be a pedestrian even if he would, for the simple reason that the coolies know they have an open-hearted soul to deal with who will not haggle over a ten-cent piece. One other remark we would make and that is there should be some sort of regulation to prevent ricksha pullers declaring to Europeans whom they may deem undesirable fares, that they are already engaged. It is practically impossible to dispute the coolies' statement, unless one is prepared to wait an indefinite time until his patron appears and even if the alleged fare does not arrive who is to prove that the puller has been toying with the truth. Especially is this the case at certain hours when assistants are leaving their offices. In Singapore they have an excellent system whereby a ricksha coolie may obtain a pass entitling him to declare that during certain hours, say from one o'clock to three and from five to seven, he is not at the disposal of the public generally being engaged by a private individual. Whether such a system would work in Hongkong we cannot tell; probably it would have to be greatly modified, but at least it might lead to a decrease in the raucous yells which greet the favoured Europeans whose generosity is known or contemplated.

LOCAL AND GENERAL.

The population of Pahang is estimated, at a more or less rough calculation, at 100,000. The name of Mr. A. E. Wright has been added to the list of authorised architects in the Colony.

RULES relating to kerosene oil licences in the New Territories (excepting New Kowloon) are published in the *Gazette*.

REGULATIONS made under the Theatre and Public Performances Regulation Ordinance, 1908, are published in the *Gazette*.

THE Viceroy of Manchuria has given permission for the establishment of a joint Chinese and Japanese Race Club in Mukden.

CHINA has entirely agreed to the Antung-Mukden railway being reconstructed by Japan. The Chinese and Japanese Commissioners are now negotiating details at Mukden.

As the construction of the Osaka Lake Courts, destroyed in the recent fire, is a matter of urgent necessity, it is reported that a temporary building will be begun immediately at an estimated cost of ¥100,000.

INSPECTOR Langley, of the Water Police Station, charged a boatman before Mr. J. R. Wood in the Police Court to-day, with obstructing the approaches to the Kowloon Wharf and Godown Company's wharves yesterday, by dredging in the vicinity. A fine of \$25 was imposed.

THE Kiu Railway Preservation Society has re-opened the whole agitation in favour of the Kiu-Kuangcheng railway being laid by the Chinese. This agitation has failed, and the Society is now trying to apply the principle to the laying of a railway from Kiu to Hengchun.

IT is notified in the *Gazette* that the following fees will be payable to the Sanitary Department for the removal of a patient in an ambulance to or from any private hospital or private residence:

- (1) A fee of \$2 for any removal on the lower level.
- (2) A fee of \$4 for any such removal to or from any private hospital or residence situated above the level of Bowen Road.

A COOLIE, in the employ of Messrs. Lane, Crawford and Company, was caught in the act of removing a piece of bacon from the store yesterday afternoon. On being charged with the theft in the Police Court this morning sentence of three months' hard labour was passed.

OF the \$300,000 required to erect the projected new Cantonese hospital in Singapore, it is rumoured that \$150,000 has been promised and that of this sum only \$60,000 is actually in hand including \$30,000 raised by the recent performances of the Selangor Chinese amateur dramatic company.

HIS Majesty the King has not been advised to exercise his power of disallowance with respect to Ordinance No. 4 of 1909, entitled an Ordinance to amend the Wireless Telegraphy Ordinance 1903; and Ordinance No. 11 of 1909, entitled an Ordinance to amend the Public Health and Buildings Ordinances, 1903-1908.

GENERAL Sir Dighton Macneil, Probyn, who is about to relinquish his office as Keeper of the Privy Purse, has in retrospect a long and distinguished military career. Born in 1833, he entered the Army sixty years ago, and in 1888 became a General. Sir Dighton Probyn served throughout the Indian Mutiny, in China in 1850, and in 1872 on the North-West Frontier. As Comptroller and Treasurer of the Household of his Majesty when Prince of Wales, he won the esteem of his Royal master and mistress, and the King presented a charming residence to Sir Dighton within the gates of the grounds surrounding Sandringham.

THE negotiations for the issue of the Osaka Shosen Kaisha loan of ¥1,000,000 with the Fifteenth Bank have been successfully concluded. The rate of interest is agreed upon at 7 per cent, at a minimum issue price of ¥97, the bonds to be redeemed in seven years after, outstanding two years. The steamers and landed property of the company, are to be mortgaged under the Trust Law with the Credit Mobilier, Limited, which guarantees the loan. The *Japan Chronicle* is informed "that these bonds will not be placed on the market for subscription." The money raised is to be used in part payment of the two steamers being built for the Tacoma line. No more money is required at present for the projected extension of the company's business.

THE story revived by a semi-official Lisbon paper about the engagement, or prospective engagement, of King Manuel to the Princess Alexandra, elder daughter of the Duke of Fife, is not apparently in accordance with fact. But such a marriage would be attended with a rather remarkable addition to the titles of a future King of Portugal who might be born of it. The Princess Alexandra is the heir presumptive of her father's Dukedom and Marquisate, and the succession of these titles would pass, in the first instance, to her heirs. Thus, a Duke of Fife and Marquis of Macduff, might, for the first time, be a reigning Sovereign at Lisbon, and with the right, in virtue of these titles, to a seat in the House of Lords.

LIQUOR LICENCES.

RESOLUTIONS BY MEMBERS OF COUNCIL.

A meeting of the Unofficial Members of the Legislative Council was held on the afternoon of Wednesday, the 18th, at which the following resolutions were passed unanimously:

- (1) That a duty be imposed on all Foreign and Chinese alcoholic liquors imported and consumed in the Colony. Liquors supplied to ships, in unbroken cases for consumption on board, and liquors re-exported, to be exempt from duty.
- (2) That Arrack and spirits of wine be treated as alcoholic liquors.
- (3) That all licensing fees be based on a valuation of the annual turn-over of the business of the licensee.
- (4) That in the event of the preceding resolution being adopted the issuing of adjunct licences be discontinued.
- (5) That all places where liquors are sold by retail for consumption on the premises be required to take out licences.
- (6) That as to the method of collecting the import duties a spirit farm is undesirable. These resolutions were communicated to His Excellency the Governor the following day.

SWIMMING.

We understand the "Buft" are holding their first Aquatic Meeting at the Victoria Recreation Club's enclosure on Friday, the 10th September.

The Corinthian Yacht Club also hold their first Aquatic Meeting on Saturday, the 11th prox., and from the following it will be noticed that a very attractive programme has been drawn up:

- 1.—Two Lengths Handicap. (Open).
 - 2.—Boys Race (Age 14 and under) (Open to Members' sons. Boys of Victoria and Garrison Schools).
 - 3.—100 yards Championship. (Open).
 - 4.—Ladies Nomination Race (C.Y.C.).
 - 5.—Two Lengths Handicap (C.Y.C.).
 - 6.—Life Saving Competition. (Open).
 - 7.—Water Polo Match. (Open).
 - 8.—High Dive. (Open).
- Entrance fees \$1.00 for each event Nos. 1, 3, 4, 5, 6, 8. Fifty Cents for No. 7. All Entrance fees to accompany forms, filled in and addressed to Mr. Guy, Victoria Dispensary, or Mr. McIver, Harbour Office. Entries close on Saturday, the 4th September, 1909.

LAMP LIGHTER'S DEATH.

A coolie, in the service of the Catholic Union, Calne Road, died yesterday afternoon from injuries he sustained in an accident. On Wednesday night last the coolie, while engaged in lighting the lamps in the grounds, fell off the ladder and fractured his skull. He was conveyed to the Government Civil Hospital and died, as already stated, yesterday. Deceased was nearly thirty years of age.

HONGKONG AND SHANGHAI BANKING CORPORATION.

HALF-YEARLY MEETING.

The ordinary half-yearly meeting of the shareholders in the Hongkong and Shanghai Banking Corporation was held at the City Hall, at noon, to-day, for the purpose of receiving the report of the Court of Directors, together with a statement of accounts to 30th June, 1909. The Hon. Mr. W. J. Gresson (chairman of directors) presided. There were also present:—Messrs. H. E. Tomkins (deputy chairman), J. W. Bannock, E. G. Barrett, Q. S. Gubbay, W. Helms, C. R. Leemann, E. Shellin, R. Shaw, H. A. Siebs, H. A. W. Slade (directors), I. R. M. Smith (chief manager), Ho Fook, L. Benidog, J. M. E. Machado, W. Dunsbar, W. E. Clarke, W. H. Purcell, A. Findlay Smith, Ho Kom Tong, A. H. Ough, W. H. Wickham, W. H. Potts, J. W. C. Bonnar, J. Barton, H. N. Mody, T. I. Ross, H. Percy Smith, R. Mitchell, J. F. Cox-Edwards, Hon. Mr. Murray Stewart, N. M. H. Nemere, R. H. Crofton, S. J. Michael, P. C. Potts, T. F. Hough, F. Paget Hett, Lau Pao Chiu, N. J. Stubb, A. F. Warrack, T. M. Knott, F. G. Garry, H. C. Joass, Chun Tong, Wong Leung Him, A. Forbes, W. Taylor, P. de C. Morris, W. C. Turner and A. Bryer.

The Chief Manager having read the notice convening the meeting, the Chairman proceeded to read the report, at the conclusion of which he said:—

Gentlemen,—In laying before you the statement of Accounts for the past half year, I am unable to report any marked improvement in the demand for money for trade requirements; ease has been the prevailing tone of the money markets throughout, and it has been a matter of some difficulty to find profitable and suitable employment for all the funds at our disposal. Under these somewhat adverse banking conditions, your Directors feel assured that the result attained will be received with general satisfaction.

Your Directors recommend payment of the usual dividend of 2½ per cent, and the carrying forward to the current half year of an amount similar to that brought in from last account. In addition to this we propose placing 5½ per cent on the Silver Reserve Fund, and in thus adhering to old traditions, by contributing to strengthen our position, I am confident we may look for your support and approval. (Applause.)

It is not my intention to detain you on this occasion with a long statement. It is the usual custom for Banks only to hold meetings annually, and, though our Deed of Settlement calls for a meeting of Shareholders twice a year, I think the one held in August should be mainly confined to passing the accounts, leaving a review of trade and business generally to be made at our meeting in February, when fuller data are available.

However, before turning to the statement of Assets and Liabilities, you will perhaps allow me to refer briefly to the subject.

We are still waiting for the long expected turn of the tide. It cannot be said that trade in the Far East is yet in a flourishing condition, but there is promise of improvement in some directions, and I see no cause for taking a pessimistic view. On the contrary, news from India of the climatic conditions, upon which particularly in that country so much depends, is favourable; silk crops in both China and Japan are reported to be well up to, if not above, the average; and new life has been infused into the Straits Settlements by the success attending the cultivation of rubber, a product which bids fair to become a valuable and, I hope, a permanent addition to the exports of that region.

These factors must all have a beneficial effect on the import trade, which has been in a more or less depressed state for a long time past, and, needless to say, any improvement will be welcomed by all who are interested in Eastern commerce.

Coming now to the statement of accounts you will notice that our Note Circulation shows, as usual at this season, a considerable reduction from the higher total which always rules just before the Chinese New Year, while the amount of dollars deposited with the Government, as security, remains unaltered. Silver deposits and current accounts are some \$17 millions over the figures which appeared in the balance sheet last June, and nearly \$5 millions higher than on 31st December, which is largely attributable to money being temporarily placed in the Bank, pending renewed activity in trade. Bills Payable are \$15 lacs lower than in December, but a similar amount higher than in June. Fixed Deposits to gold are practically unchanged, but Gold current accounts shows a decrease of some £1,800,000, being about the amount mentioned at our last meeting as proceeds of loans temporarily held by our London Office. This is reflected on the other side of the account by an almost equal reduction in Bills Receivable, as compared with the total on 31st December. At that date the amount stood at a much higher figure than on any previous occasion, which was chiefly due to the large amount of homeward remittances carried by our London Office instead of rediscounted. Cash and Bullion in hand and in transit, together show an increase of \$11 millions; Bills Discounted, Loans, and Credits stand at \$115 millions, as against \$120 millions on 31st December and \$109 millions on 30th June.

Indian Government Rupee Paper, and Consols, Colonial, and other Investments, are lower than last half year, but some \$3,000,000 over the figures of a year ago.

The only other matter that I have to refer to is the opening of our own office in Canton. It has been apparent, for some time, that Railway and other business interests there, called for further local banking facilities, and you will see from the report that a Branch Office of the Bank was established on the 6th of last month. I have no doubt that, in time, it will prove a valuable addition to our list of Agencies.

Before moving the adoption of the Report and Accounts, there is a subject to which I think

you would like me to refer, though it is not one that affects the accounts now before us.

You have no doubt noticed the announcement on behalf of the Bank your Directors have agreed to subscribe \$50,000 to the proposed Hongkong University conditionally upon the full amount required for the Endowment Fund being forthcoming. Without desiring to enter into the controversy as to the desirability of a University at all, I would point out that the proposition has been most favourably received by the Chinese, including the highest officials not only in Canton but also in Peking, as is demonstrated by the way they have come forward with subscriptions, and if you will reflect on the position held by the Bank in China and its intimate financial relations with the Chinese Imperial Government for so many years, I am sure you will recognise that we have acted in the best interests of the Bank and will approve of our action accordingly. (Hear, hear, and applause.)

There being no questions the Chairman moved the adoption of the report and accounts.

Mr. W. Dunsbar said:—I have much pleasure in seconding the adoption of the report and accounts. The balance sheet reflects great credit on the management of the Bank, for during these dull times it can be no easy task and I am sure shareholders must feel highly pleased at the disposition made of profits and will cordially approve of the donation to the proposed University. (Applause.)

The motion was carried unanimously. Mr. A. H. Ough proposed, and Mr. W. H. Wickham seconded, that the election of Mr. J. W. Bannock as a director be confirmed.

Agreed to. The Chairman:—That is all the business, Gentlemen; thank you for your attendance. Dividend warrants will be ready on Monday. The meeting then dispersed.

HONGKONG WATER POLO SHIELD COMPETITION.

SEVENTH ROUND.

Two Shield Matches were scheduled to have taken place yesterday, but at the last minute the Lusitano Recreation Club forfeited their game to the Corinthian Yacht Club. This is the first occasion this year that such a thing has happened, as even much weaker teams than the L.R.C. have turned up and faced such formidable opponents as the V.R.C. and C.Y.C., and much comment was passed over this withdrawal.

The Royal Engineers met the 87th Coy. Royal Garrison Artillery to decide their tie, and after a pretty tough game, this ended in a win for the Sappers by 4 goals to nil.

The Boys' Own Club's representatives then met the "Buft" in a friendly match, and had to acknowledge defeat at the call of time to the tune of 6 goals to 4. Petersen substituted White in goal for the Boys and this easily accounts for the big score against them, as being without experience between the posts he was unable to stop even some of the softest shots that were sent in.

8TH ROUND.

88th Co. R.G.A. vs. 87th Co. R.G.A.
B.O.C. vs. L.R.C.
R.E. vs. 83rd Co. R.G.A.
C.Y.C. vs. Buft.

LEAGUE TABLE.

Played.	Won.	Lost.	Drawn.	Points.
V.R.C.	7	0	0	14
C.Y.C.	7	6	1	12
Bufts	5	1	0	10

R.E.	6	2	4	4
83rd Co. R.G.A.	1	5	0	2
88th Co. R.G.A.	0	5	1	1
87th Co. R.G.A.	0	6	0	0

ALLEGED RENEWAL OF JAPANESE BOYCOTT.

DEMEANOUR OF CANTONESE CHINESE.

The *Japan Chronicle* says:—There are indications that the boycott against the Japanese is being renewed by the Cantonese Chinese as a result of the Antung-Mukden Railway trouble. It had been hoped the agitation following on the *Tatsu-maru* affair had died away. The *Nippon-maru*, which left Hongkong on July 10th, shipped a fairly good number of Chinese passengers and a considerable quantity of cargo, and it was expected that the *Chiyo-maru* would be even more successful. Unfortunately, the trouble in regard to the Antung-Mukden Railway broke out at this juncture and seems to have affected the Chinese in Canton and Hongkong, as the shipment of Chinese cargo and passengers by the *Chiyo-maru* was no better than when the late boycott was at its height.

A Japanese passenger on board the vessel, on arrival at Nagasaki from Hongkong via Keelung, gave some particulars in an interview with the *Asahi* correspondent at Nagasaki. He said that while the steamer was lying at Hongkong, a dinner was given by the officers of the vessel, to which were invited Mr. Funatsu, the Japanese Consul at Hongkong, H.E. Chang, Viceroy of Liangkwaig, and a number of the leading Japanese and Chinese officials and merchants. He thought this had a good effect in conciliating feeling between the Japanese and Chinese, which had become ruffled as a result of the Antung-Mukden Railway question. It may be noted that the *Chiyo-maru* carried 228 Philippine labourers for Hawaii.

A Nagasaki dispatch reports that the P.M. steamer *Mongolia* which arrived at Nagasaki on the 12th instant from San Francisco via Yokohama, carried 235 Chinese labourers returning from America. They appeared, it is remarked, to be influenced by the Antung-Mukden trouble, for during their stay in Nagasaki they refrained from purchasing Japanese goods.

[As far as it can be ascertained locally there are no indications of a renewal of the boycott against the Japanese by the Chinese in Hongkong.—Ed., H.K.T.]

Hongkong Policemen Murdered.

KILLED ON THE ROADSIDE.

DASTARDLY CRIME BY CHINAMEN NEAR AU TAU.

There has been another grim murder committed in the New Territory—a murder of a most brutal character and one which is unprecedented in the annals of crime in this Colony. Shortly before noon yesterday a report was made, by two coolies, at the Tai Po Police Station, to the effect that two Indian policemen had been murdered by robbers on the roadside some eight miles away. The coolies also stated that they had to flee for their lives.

It is needless to remark that the police officers proceeded to the scene of the tragedy, and near the Lam village they found the bodies of the officers. The body of an Indian sergeant, by name Kurram Deen (No. 617) was found lying on the roadway, severely lacerated. The man had been dead for some hours. His body was cold and stiff with rigor mortis, and it was clear at first sight that he had been murdered, and murdered in a most horrible manner.

There was a severe cut on his head, very nearly reaching the eyes, and his left shoulder was chopped right down—a right hand to be forgotten. At the bottom of the ravine the police officers discovered the body of the other man, Police-constable Mohammed Khan (No. 877). He also was chopped about the head and shoulders. He was minus his boots, and evidently had not been dead for very long.

In order to follow the facts of this terrible tragedy it is necessary to place the locality in the mind of the reader. Au Tau is a town twenty-five miles away from Hongkong, and nine miles from Tai Po, and six miles distance from Castle Peak Bay, travelling in a northerly direction.

At an early hour yesterday morning Indian police-sergeant Kurram Deen and Police-constable Mohammed Khan left Au Tau Police Station being the escort to see to the safe delivery at Tai Po of a box containing over \$400 in cash, which was the annual Crown rent of that district. The box of money was carried on a bamboo pole by two coolies, who are well known in the neighbourhood.

The party left Au Tau after six o'clock, the coolies carrying the box, in the manner already described, while the Indian policemen marched alongside them.

It is very natural that, carrying a heavy box of silver on or, perhaps, two stops were made on the way, but everything went smoothly until the party arrived near Lam Chuen—a village near Tai Moh Shan, and half way between Au Tau and Tai Po—where they were attacked.

This is the story of our reporters was told, as it was given by the coolies carrying the money box. "As we were approaching Lam Chuen, bound for the Land Office, at Tai Po, at about 8.40 a.m., we saw eight men—four, seated at each side of the road." They thought nothing of this and continued on their way, and no sooner had they attempted to pass the men than they were rushed upon.

In the twinkling of an eye the robbers jumped up and, having produced their choppers, they sprang upon the Indian sergeant and with two strokes killed the man on the spot.

Their attention was next turned to the police-constable, who also was brutally attacked with choppers. Crawling to the side of the road the unfortunate man—no doubt with the intention of getting back either to Tai Po or Au Tau to report the occurrence—removed his boots to make the tramp easier, but he must have collapsed through loss of blood, which accounted for his body being found at the bottom of the ravine.

While the attack on the policemen was being made the coolies, becoming scared, dropped the box of money on the road, and cleared for Tai Po, which they reached an hour or two later. Having settled the officers the murderers departed with the box of money. It is believed they made for the frontier.

The bodies of the two policemen were removed to Hongkong and the burial took place this forenoon.

Kurram Deen (the sergeant) was thirty-two years of age, and had been in the Police Force for about twelve years, having joined from the Indian regiment. His compatriot was two years younger, and joined the local Force five years ago.

When the news was received in the Colony H. E. the Governor (Sir Frederick Lugard) was promptly notified, and there is no denying that it must have broken upon him as a very unpleasant piece of news.

Detectives are scouring the New Territories diligently in search of the murderers. Up to now no one has been arrested, but no stone will be left unturned to bring the offenders to book.

MR. ROBT. MITCHELL IN HONGKONG.

ARRIVAL YESTERDAY ON S.S. "EMPIRE."

Friends of Mr. Robert Mitchell, late manager of the Hongkong and Whampoa Dock Company, were pleased to meet the former genial Hongkong resident to-day. Mr. Mitchell arrived here yesterday by the E. and A. S. *Empire* from Australia and is passing through Hongkong after having accomplished a brief tour in the Commonwealth, where he had to grant several Press interviews. Mr. Mitchell attended the annual meeting of the Hongkong and Shanghai Banking Corporation this morning and was looking very well after the holiday in the Antipodes.

For stealing a quantity of paint, the property of the Quarry Bay Shipyard, yesterday, a coolie was in the Police Court to-day, given three weeks' hard labour and six hours in the stocks.

Telegrams.

"HONGKONG TELEGRAPH" SERVICE.

CHANG CHIH-TUNG.

LEAVE OF ABSENCE EXTENDED.

[By courtesy of the "Sheung Po."]

Peking, 20th August.

Grand Councillor Chang Chih-tung has been granted an extension of leave of twenty days.

CANTON-HANKOW RAILWAY.

THE LOAN AGREEMENT.

[By courtesy of the "Sheung Po."]

Peking, 20th August.

The loan for the construction of the Canton-Hankow and Hankow-Szechuan Railways is for £6,000,000. The agreement is ready and will be signed shortly.

Later.

Great Britain, Germany and France are underwriting the loan for the Hankow-Szechuan Railway with America participating in it.

The people of Hunan and Hupoh refuse to recognize these loans.

TO SUPPRESS OPIUM TRAFFIC.

DRASTIC MEASURES PROPOSED.

It is suggested by the Comptroller-General of Customs, as a means of crushing out the illicit traffic in opium, that the duty should be re-imposed, and the money devoted to buying the consent of the opium-smokers to their being sent back to China (says the Melbourne representative of the Sydney Daily Telegraph). This would ultimately lead to there being no smokers left. The prohibitory law has not prevented, and will not, he says, prevent the sale of opium in Australia, while the revenue, which used to total £5,000 or £6,000, is now available for those engaged in smuggling. "As we cannot keep opium out," he adds, "why not let it in under a heavy duty, as formerly, and use the revenue in a way that would ultimately decrease the demand."

Commenting on the foregoing, the Sydney paper says:—

The plan of the Comptroller-General of Customs for stamping out the illicit traffic in opium, as outlined in another column, would be a fine one—if it were only practicable. But as matters are, it goes to show that while Dr. Wollaston may be an excellent head for the Customs Department, he has, when he begins to dabble in matters concerned with Chinese character, too much of that simple faith which, as the poet tells us, "is more than Norman blood."

If the bland, resourceful Chinaman were a mere European, he might be a subject for treatment in some such disingenuous fashion as that proposed. But being what he is, it is for one moment seriously to be expected that in order to be allowed to smoke opium, he is going to consent to deportation for his smoking sins when he can remain and, as is so obviously the case, smoke "allee same"? Perhaps one of the reasons why the prohibition does not keep out opium is that the Chinese now have the £50,000 or £60,000 a year which they formerly spent in Customs duties to speculate in smuggling. Anyhow, they seem to get a great deal in, and that being so they may be trusted to stay in this land where they can have their wealth and their pipe—none the less surely if, at the same time, in preference to going back to the overcrowded poverty of their native country. In any event, how could a scheme like that put forward by the Comptroller be carried out? The opium-smoking Chinese could not be segregated, else they would cease to be the industrious units of the population they now are, and their power to buy opium and so contribute to the fund which is to bear them out of the country would be gone. And who would guarantee that the opium lawfully admitted and kept in possession would not be diverted so as to produce a continuing crop of smokers? Evidently the only chance of killing the trade is to stick to the prohibition until the present tribe of "dopers" have become cured or have passed away.

SHIPPING AND MAILS.

MAILS DUE.

Canadian (Empress of China) 26th inst.
 Indian (Lalanga) 26th inst.
 German (Derfflinger) 30th inst.

The T. K. K. s.s. *Tenyo Maru* is expected at this port on 23rd inst., at 6 p.m.

The I. C. S. N. Co's s.s. *Lalanga* from Calcutta and the Straits left Singapore for this port on 24th inst.

The N. Y. K. s.s. *Takaaki Maru*, Bombay Line, left Singapore for this port on 19th inst., and is expected here on 25th inst.

The N. Y. K. s.s. *Miyazaki Maru*, European Line, left Singapore for this port on 19th inst., and is expected here on 24th inst., p.m.

The N. Y. K. s.s. *Tamba Maru*, European Line, left Kobe for this port via Moji and Shanghai on 21st inst., and is expected here on 30th inst.

The N. Y. K. s.s. *Nikko Maru*, Australian Line, left Yokohama for this port via Kobe, Moji and Nagasaki on 29th inst., and is expected here on 31st inst.

The C. P. R. Co's s.s. *Empress of China* arrived at Nagasaki at 5.30 a.m., on 21st inst., and left again at 4 p.m., on 21st inst., for Shanghai, where she is due to arrive at 4 a.m., on 23rd inst.

NOTES BY THE WAY.

THE QUESTION OF THE HOUR.

The news that the licensing debate had been postponed at the eleventh hour (which, by the way, the H.K.T. was the first to announce) came as a surprise to most people. The man-in-the-street had confidently expected to be treated to awe-inspiring flights of oratory by our legislators and the information that this was to be denied him, at least for the moment, must have proved a veritable damper owing to its unexpectedness. It is satisfactory, however, to note that a meeting of the Unofficial Members of the Legislative Council was held on Wednesday afternoon, at which a number of resolutions were passed and duly communicated to H.E. the Governor, and the result of this latest move on the part of the Unofficial Members, who necessarily represent the sentiments of a large section of the community, will be awaited with interest. Meanwhile, the promise of the Imperial Government to grant a "substantial contribution" in order to compensate for the loss of the opium trade remains, to all intents and purposes, adretd letter, which provethat the wisdom contained in the old adage that promises are made of pie-crust is as true to-day as it was when it first saw the light. Rome was not built in a day; neither can a Government enrich its exchequer by a sudden adroit manoeuvre. By the doubling of the fees paid by liquor licensees, the Colony's revenue will be raised by a mere trifle, as it should not be forgotten that there is a likelihood of the trade being diverted elsewhere. Therefore, the utility of any inclination on the part of Government to look to the liquor trade as the be-all and end-all of the Colony's finances is obvious. The powers that be should also turn their attention to other sources.

A SELF-STYLED SOCIETY.

The doings of the Self-Government Society at Canton have roused no little attention of late, particularly among the Portuguese community, both here and at Macao, who are bound to feel the thin end of the wedge if the machinations of the Society are allowed to continue. At first sight, the grandiloquent title chosen by the Society would lead one to the conclusion that it is a Heaven-appointed cabal formed for the purpose of lifting China from the slough into which she has fallen for centuries, but on closer intimacy with the real motives actuating the efforts of its members, it will be found to be nothing more nor less than an unlawful coterie whose official status, if any is claimed, is not recognized by the powers at Peking. The interesting correspondence which appeared the other day in the *Hongkong Telegraph* has thrown an important side-light on the methods of the organization. A Society which openly assists the Chinese Press in the publication of important evidence before the hearing of a case can only tend to demoralization and should not be countenanced. Judging from the orders issued on several occasions by the High Authorities to suppress the trouble-some band of malcontents, the Society is a discredited power in the eye of Peking but to all intents and purposes, the authorities in the Capital are oblivious of the evil effects produced on the minds of the ignorant masses. The sooner the curtain is drawn over the so-called protective institution the better. Verily, the suppression of gangs of irresponsible demagogues is the *prima visum* of Chinese officialdom.

A LIVELY PICNIC.

The last week has been one of continual sunshine. King Sol has at last elected to shake off his sullen mood and burst forth his beaming rays over a sporting world. All who have dealings with the terrible individual who presides over the weather are aware of his leaning towards the opinion that too much of a good thing for Hongkong is hardly to be thought of and his magnanimity, therefore, has been all the more appreciated. Voters of the nativity art have taken full advantage of the propitious weather conditions and the demand for launches has been pretty brisk. The week has also been responsible for an amusing incident which is too good to pass unnoticed. I had the good fortune to secure an invitation for a launch excursion, a regular family event, so to speak. The launch having arrived at a shady spot, it was decided by popular consent to indulge in a dip. One member of the party, whose headlong boldness is among his other interesting qualifications, suggested a locality noted for the presence of jelly-fish. As the others did not have a particular fondness for jelly-fish, they naturally did not fall in with the idea and so it was that the original one, having armed himself with his bathing paraphernalia, made a bee-line for the evaded spot, after having delivered some well-pointed remarks about unpopularity, etc. Luckily, no undesirable acquaintance troubled him during a somewhat lengthy spell in the water but imagine his consternation when, on emerging from the water he made the painful discovery that his bathing kit was gone! As this was not the first time that such articles of clothing have taken legs unto themselves and walked away (figuratively speaking) the victim of the theft had to make the best of a bad bargain and as he happened to have an attack of chill, the rest of the excursion was spent in a suit of pyjamas belonging to the stoker which was hardly what one would call the acme of cleanliness. Of course, during the whole of the return trip, the martyr of circumstances carefully avoided the company of the ladies and evinced a remarkable interest in uninteresting objects (sic) at the other end of the launch. His invectives are not recorded.

THE COLONEL'S COMMAND.

The illegal reasoning of some people almost verges on the side of the burlesque. The other day, I was a personal witness of an incident which had a tinge of unconscious humour. The usual morning parade was in progress and one of the Tommies, who was unfortunate enough to miss the Peak tram, and who, consequently, marched down to the parade ground in solitary grandeur, was severely taken to task by the company commander. To make matters worse, the officer noticed that Thomas Atkins' tunic was wet and evidently being a

firm believer in a spotless uniform, indignantly demanded an explanation. "I met with a shower while coming down, sir," meekly replied the delinquent, who was literally shivering in his boots, under his superior's withering gaze, but a startling sequel was reached when the rigid disciplinarian thundered forth the following: "That's no excuse. Rain or no rain, you must see to your uniform being in a presentable state," which reminds me of a good story told of the Colonel of a famous regiment who was in the habit of going round the barracks every night after "lights out" had been sounded. One night, he noticed what appeared to be a light in one of the rooms, on which he sternly called out: "Put out that light!" "It's the moon, sir," came a voice from the room. "I don't care what it is," replied the irate Colonel. "You just put it out!" illogical, isn't it?

LIFE-SAVING EXTRAORDINARY.

It is not usual for a person whose life is in danger to attempt to save himself by standing on his head but one such authentic instance is vouched for in the recently published life of Sir Robert Hart. According to a story related in that highly interesting publication, it appears that in 1847, a vessel carrying opium was wrecked on the island of Formosa. The crew consisted of 174 Bengalis and thirteen white men. The Bengalis were promptly beheaded by the savage natives, but the ship's carpenter devised a shrewd plan to save the lives of his comrades. Why not soften the hearts of their captors by a novel and profound *kowtow*; why not stand on his head? He did so, with the happiest result. The savages, delighted with this sign of respect, spared the lives of the white men. The above story is reminiscent of an incident in the life of Sir Robert Hart at the time of the Boxer outbreak which has been lately going the rounds and which is of additional interest at the present moment owing to the rumoured announcement of Sir Robert's retirement from service. A party of soldiers belonging to a certain European Legation entered the house where Sir Robert Hart was staying and would doubtless have proved objectionable to the inmates, but the veteran L.G., whose fertility of imagination is well-known, instructed his private band to strike up the National Anthem of the hostile squad, who immediately stood to attention. As soon as the band ceased playing, the bewildered soldiers left the house without molesting any of the inmates.

CASUAL CRITIC.

OIL-SHIP ON FIRE.

RUMOURD INCENDIARISM.

Fire broke out in the No. 1 hold of the barque *Houard D. Troop* in Yokohama Harbour at about 11 o'clock on the night of the 18th instant. The vessel, which is engaged in the carrying of Standard Oil Co's products arrived in harbour on the 25th ultimo, and has since been discharging oil. After the fire was discovered the barque was towed towards Kanagawa, reports the *Japan Herald*, but before proceeding far the vessel ran aground. As soon as possible after the outbreak the Captain's wife, Mrs. A. J. Durkee, was transferred to the oil tank *Pinna*, and the hatches were *blown down*. The damage is as yet unknown, but judging from the external appearance of the barque, would not appear to be extensive. Four thousand cases of kerosene, stored in the near hatch, escaped the effects of the fire, though at one time fears were entertained for the safety of this portion of the cargo. At the time of going to press the fire seemed to have been extinguished, but the tugs were still pumping water into the vessel as she lays off the breakwater, with a heavy list. A rumour prevailed that the fire was the outcome of incendiaryism, but so far this has not been substantiated.

Later news to hand from the Harbour Police Office states that after the barque was towed to Koyasu, holes were made in the side of the vessel in an endeavour to scuttle her, but the attempt proved abortive.

Of the cargo, 89,400 cases of refined petroleum and 200 barrels of lubricating oil have been transferred from the burning barque to the Customs compound, while 4,500 cases of refined petroleum are still on board the vessel.

With regard to the rumoured incendiaryism, the authorities state that some friction had existed between the Captain and crew, and six of the crew were missing after the fire was discovered. An investigation is to be held.

VOLUNTEER CORPS ORDERS.

SIGNALLING CLASS.

At Quarry Bay at 5.15 p.m. on Monday, the 23rd, and Thursday, the 26th inst.

RECRUITS' DRILL.

At Headquarters at 5.30 p.m. on Wednesday, the 25th instant, for 2' 95" gun drill. Sergt. Moore, R.G.A., will attend.

ENGINEER COMPANY.

The second shoot for the Carmichael Cup will be held at King's Park Range on Sunday, the 22nd instant, at 2.30 p.m. sharp.

Entrance fee—30 cents. Members may purchase ammunition on the Range for cash—Hongkong currency.

Drills for the above company will be held on the first and last Wednesdays of the month.

RESIGNED.

Private T. Martin is permitted to resign with effect from the 15th inst.

Trooper W. J. Daniel is permitted to resign on leaving the Colony with effect from the 18th instant.

LEAVE.

Trooper G. M. Harston is granted leave of absence out of the Colony for 12 months with effect from the 5th September.

THE Manila *Cablenews* says:—Mr. W. C. Reibling, chemist in charge of the cement and concrete testing laboratory of the bureau of science, will leave on official duty for Hongkong via the *Mongolia*. He will spend an indefinite period at the works of the Green Island Cement Company.

COMMERCIAL.

YARN MARKET.

Hongkong, 20th August, 1909.

The firm feeling alluded to in last report has been not only well maintained, but much strengthened by advices of an active and rising market in Shanghai. A brisk and better inquiry existed throughout the greater part of past fortnight and dealers have, in several instances advanced on their offers which had previously been refused. Prices of No. 20s show little fluctuation but an advance of \$1 to \$2 per bale has been established for suitable desirable tickets of Nos. 10s and 12s, which have been in strong demand for the Northern and East Coast markets. Receipts for the fortnight are much above the average, but as the offer also show a considerable increase, our estimate of stocks shows only a small addition when compared with last figures, and the market closes firm. Bombay is reported quiet but strong, and latest telegrams from that port quote Assur No. 10s, 61 annas and Victoria No. 20s, 7½ annas per pound. The monsoon conditions are so far satisfactory, sufficient rain having fallen all over India.

Sales of the interval aggregate 8,353 bales, arrivals amount to 19,000 bales, unsold stock estimated at 20,000 and uncleaned yarn in second hands about 36,000 bales.

Local Manufacture:—Sales of about 400 bales Nos. 10s and 12s at \$116 and \$120 respectively are reported.

Japanese Yarn:—Neglected throughout.

Raw Cotton:—Importations of Indian descriptions are entirely checked by higher prices ruling in the home markets and there is no stock or transaction. In China kinds a parcel of 190 bales (small) *Thoonchow* is reported to have changed hands at \$64. We quote to-day Indian \$29 to \$35 and China \$32 to \$37.

Exchange on India closes to-day at Rs. 1304 for T/T and Rs. 131 for Post. On Shanghai 74½ and on Japan 84½.

The undimmed business in imported and local spinnings is reported from Shanghai during the fortnight ended the 14th instant, viz:—

Indian:—A strong demand was experienced during the interval, Nos. 10s and 12s attracting most attention, values showing an advance of 1 to 2 Taels per bale and market closing strong. Total sales about 10,000 bales, with an estimated stock of 73,000 bales.

Japanese:—Continue in good demand and prices have advanced 2 to 3 Taels per bale. Total sales about 4,000 bales at Tls. 103½ to 114½ for No. 16s and Tls. 113½ to 119 for No. 20s.

Local:—Have been considerably dealt in, about 15,000 bales are reported to have changed hands on the basis of Tls. 91 for No. 10s, Tls. 99½ for No. 12s and Tls. 104 to 106 for No. 16s.

P. EDULIER, Broker.

FORTNIGHTLY REPORT.

Since the issue of our last report on the 6th instant per s.s. *Dikka* the market ruled quiet during the early portion of the interval and small sales were effected at or about previous rates. Subsequently advices of a strong and active inquiry in Shanghai, especially for Nos. 10s and 12s, induced some holders to ship off their goods to that port. The native speculators then availed themselves of this opportunity to again enter the market and with a view to strengthen their previous purchases commenced buying special desirable tickets of these counts with the result that values of these counts advanced from 50 cents to \$1½ per bale and a good business was put through. Holders having now, more or less, eased their stocks, are less eager to sell while dealers having sufficient yarn in hand are not inclined to force the hands of sellers and thus our market at present closes firm and strong with a moderate business passing. Clearances during the fortnight have been moderate.

No. 6s.—A small business at a slight advance.

No. 8s.—Nothing doing.

No. 10s. & 12s.—In good inquiry at an advance of 50 cents to \$1 per bale.

No. 16s.—Small sales owing to light stocks.

No. 20s.—Special tickets under country orders are saleable at about quotations, and some at an advance of \$1 to \$1½ while other chops in less favour with country buyers are passed over for lower prices.

Total sales about 8,200 bales. Unsold stocks estimated at 19,000 bales. Sold but undelivered in the godowns, and to arrive 46,000 bales.

Arrivals.—The mail str. *Devanka* and extra str. *Yichia*, *Yehoshi* and *Nippow* from Bombay, and str. *A. Apar* and *Lightning* from Calcutta have brought in 17,989 bales for Hongkong, and 7,437 bales for Shanghai, shipments from Hongkong to Shanghai and coast ports, &c., amount to about 6,000 bales.

Shanghai.—Is reported strong and active with a good business passing at an increase of 1 to 2 taels per bale.

Japanese Yarn.—Market almost closed.

Local Mill.—Sales of 395 bales No. 10s and 12s at \$116 and \$120 respectively are reported.

Raw Cotton.—Importations of Indian staple are entirely checked by very high prices ruling in India and consequently there is no business in these kinds. About 190 bales (small) Shanghai cotton have changed hands at \$16½ per cent. We quote to-day Bengale \$29 to \$36 and China \$32 to \$37.

Rupees. T/T 130½ Sterling. D/D 1/8 13/16 Shanghai. T/T 74½.

Rupees. D/D 131 Sterling. 4m/8 1/8 13/16 Japan. 84½.

Bar Silver 23 7/16.

POLISHWALLA AND KOTWALL, Cotton and Yarn Brokers.

THE chief quartermaster of the division at Manila has received a cable from Lieutenant von dem Busche, quartermaster of the transport *Warren*, announcing the arrival of that vessel at Shanghai on the 15th instant. The *Warren* will be in the China port for about three months undergoing extensive repairs and alterations.

To-day's Advertisements.

HONGKONG AND SHANGHAI BANKING CORPORATION.

THE DIVIDEND declared for the Half Year ending 30th June, 1909, at the rate of TWO POUNDS STERLING per Share of \$125 is Payable on and after MONDAY, the 23rd August, current, at the Offices of the Corporation, WHERE SHAREHOLDERS ARE REQUESTED TO APPLY FOR WARRANTS.

By Order of the Court of Directors,
 J. R. M. SMITH,
 Chief Manager,
 Hongkong, 21st August, 1909. [602]

KOWLOON CRICKET CLUB CONCERT.

PROGRAMME.

THE following is the Programme of a Concert to be held on the Kowloon Cricket Club Ground TO-NIGHT, the 21st inst., commencing at 9 P.M.

PART 1.
 1. Overture....."Tannhauser".....Wagner
 Band of "The Buffs."
 2. Tenor Solo....."Life the Organist".....Gray
 Revd. A. P. Crofton.
 3. Soprano Solo....."Awake".....
 Mrs. J. W. Kew.

D. NOMA, PROFESSIONAL TATTOOER.

AND THE EXPERT REMOVER OF TATTOO MARKS.

No. 60, QUEEN'S ROAD, CENTRAL.

PATRONISED by Prince of Wales, then H. R. H. The Duke of York, and H. R. H. The Emperor of Russia, and having 4,500 testimonials from all sources.

My 34 years' experience in tattooing is a guarantee of good work and prompt execution. My colours are absolutely fast and perfectly harmless, and produce a charming effect not attained by any other, as their composition is only known to me. In tattooing, unlike some species of engraving, care must be taken to make the work in a perfect, high toned manner. In order to take special precaution against possible dangers, I use fresh materials daily.

The copying of Portraits with distinct minuteness a speciality.

Hongkong, 1st September, 1908.

THERAPY MAY NOW ALSO BE OBTAINED IN DRAGOE (TASTELESS) FORM.

SELF CURE NO FICTION! MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR.

but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily and economically cure himself without the knowledge of a second party. By the introduction of THE NEW FRENCH REMEDY THERAPION.

THERAPION No. 1—The Sovereign Remedy for discharges, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—The Sovereign Remedy for primary and secondary skin eruptions, ulcerations, pains swelling of the joints, and all those complications which mercury and arsenic are popularly but erroneously supposed to cure.

This remedy purifies the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3—The Sovereign Remedy for debility, nervousness, impaired vitality, sleeplessness, distaste and incapacity for business or pleasure, loss of appetite, blinding indigestion, pains in the back and head, and all disorders resulting from dissipation, early excess, &c., which the faculty of partially restores because so important to cure or even relieve.

THERAPION No. 4—The Sovereign Remedy for rheumatism, sciatica, neuralgia, lumbago, and all those pains which are the result of impure blood.

Comes from The Le Clerc Medicine Co., Laverstock Road, Haverstock, London, E.C. 1. In England 2/6. In order, state which of the three numbers required, and see that word "THERAPION" appears on British Government Stamp affixed to every genuine package.

Sold by all Chemists.

FACTS ABOUT FEATHERS.

ENORMOUS SUMS PAID FOR HATS.

Appropos the lecture given by Mr. Rothery on the destruction of birds at the last meeting of the National Council of Women according to information received by the last English mail Lord Avebury hopes to get the third reading of his Bill, which prohibits the importation to England of feathers for millinery purposes, carried very soon. The consequence is that there has been a rush by those in the trade to buy all the feathers available at plume auctions, in anticipation of the prices rising in the near future.

LADIES LIKE OSPREYS.
During the latter half of last year 10,742 birds of paradise skins, and 1,411 packages of the nesting plumes of the white heron (representing nearly 115,000 birds), were sold in London, while only a few days ago the produce of over 80,000 birds, including birds of paradise, kingfishers, parrots, albatrosses, pigeons, herons, and humming-birds, and crested starlings—were sold by auction in Mincing Lane. In addition 237 packages of osprey feathers, representing the produce of about 2,700 ospreys, were sold, clearly showing that Royalty cannot always sway the fashions, for although Queen Alexandra has expressed a wish that ladies should not wear ospreys in their hats, little attention apparently has been paid to Her Majesty's desires.

The ospreys mentioned fetched on an average about £6 an ounce, and, as each package averaged about 20 oz. over £27,000 worth ospreys were sold. Nearly £2 per skin is paid for birds of paradise, close upon £40,000 worth, therefore, being sold during the latter half of last year.

£50 FOR A HAT.
These figures will give some idea of the enormous slaughter of birds for which millinery is mainly responsible. It is quite a common occurrence for an English society woman to pay £30 or £40 for one of the startling large hats of the day. Six bushy white ospreys ten times above the crown in addition to other trimming, one particular model having a complete hedge of white ospreys, surrounded by a thick bordering of black ones. As much as £50 has been paid for one of the latest hats, an average price being 12 to 15 guineas.

Ostrich feathers still hold their own in the millinery world, although they are not so costly as ospreys, white heron plumes, or birds of paradise skins. A fine plume can be obtained for 5s. and a beautiful lot for half that amount. WHY OSTRICH FEATHERS ARE CHEAPER.
Prices for ostrich feathers, however, have been largely brought down during the last decade or so by the establishment just outside Nice, in the South of France, of an ostrich farm by a young Englishman, Mr. Edwin Couston, the first man to rear ostriches with success outside South Africa. The taking of the feathers is quite a simple act. Great care, however, has to be exercised for the ostrich is very strong, and capable of inflicting terrible injuries with his powerful legs. The bird selected to be plucked is enticed into a small wedge-shaped enclosure by a tempting basin of corn or sugar beet. Then, before the bird realises what is to happen, a blinding "stocking" is clapped over his head, and he at once becomes as timid and helpless as a child. One man holds him, while the other removes the feathers. The larger plumes are cut, but the smaller ones are pulled out.

The plucking is done with the greatest care and skill, in order that the socket of the feather shall not be injured, and so spoil a new growth. No pain is caused the bird in extracting the feathers. The Society for the Prevention of Cruelty to Animals recognised this fact many years ago, and deemed the ostrich in no need of its protection.

THE WEATHER.

The following report is from Mr. F. G. Figg, Director of the Hongkong Observatory:—
On the 21st at 12.05 p.m.—The barometer has risen slightly in E. Japan, and fallen a little over China, the Loochoos and the S. Philippines.

The depression is still shown over the Pacific to the E. of Japan.

Pressure is highest over the N. part of the China Sea and N. Luzon. It is relatively low over Central China.

Light to moderate monsoon may be expected in the Formosa Channel and along the northern shores of the China Sea.

Hongkong Rainfall for the 24 hours ending at 10 a.m. to-day, 0.00 inches.

FORECAST.

- 1.—Hongkong and Neighbourhood, S. winds, light or moderate, fair.
- 2.—Formosa Channel, same as No. 1.
- 3.—South coast of China between Hongkong and Lamoo, same as No. 1.
- 4.—South coast of China between Hongkong and Hainan, same as No. 1.

"PAY, PAY, PAY!"

The rent?—I have to pay it.
And, with that peril paid,
The rates?—I grieve to say it.
Must, must be paid at last.
As here I sigh, "Alas I man
Has bitter cause to rue!"
The water and the gas man,
Insist on payment, too.
For fuel, food, and raiment,
Plain necessities all,
Come stern demands for payment,
And many a clamorous call.
Then, too, I can, alack I see
Day after weary day,
By train or tram or taxi
There is a fare to pay.
And every day I'm seeing
With litch for payment cursed
The food and foolish being
Who would assuage my thirst.
I to these harpies state—all
Such payments I condemn,
For me they all are fatal,
If capital for them.
So, patriots, be—oh I be dumb,
Or own the truth to be,
This is no land of freedom,
Till all these things are free.
—Pall Mall Gazette.

LYNCHED FOR FLIRTING.

SAVAGE ATTACK ON BEAUTIFUL GIRL BY JEALOUS WOMEN.

Jealousy has rarely expressed itself in so revolting a manner as in a case described by the St. Petersburg correspondent of the Paris "Patrie," who telegraphs details of a savage and revolting case of lynching which occurred in the village of Volechki, in the government of Volhynia. A young and beautiful woman living in the village had succeeded in incurring the hatred of the other women of the village by her flirtations with the men of the neighbourhood, both married and single, the women's hatred for the girl reaching a climax last month when it became known that on her account one of the young men of the village had broken his promise to marry another girl. On coming out of church on Sunday the women, both old and young, threw themselves upon the first, and, in spite of her cries for mercy, tore all her clothes off. They then dragged her through the village by the hair of her head, beating and stoning her mercilessly. At first the men laughed, but when they saw how savagely the girl was being maltreated they attempted to rescue her. The infuriated women, however, drove them off, and then dragged their unhappy victim, who was by now a mass of wounds, to a large tree just outside the village, where they hanged her to one of the branches, and then lighted a fire of brushwood under her. When the police arrived on the scene they found the victim of the women's fury lying dead under the tree, blackened to a cinder.

VETARZO BRAIN AND NERVE FOOD.

This remarkable compound, the result of the latest developments and achievements of modern chemistry, pharmacology, and therapeutics, is without equal in all cases of defective nerve power, whether induced by worry, overwork, intemperance, climate, excess, youthful intemperance, or other influences incidental to the wear and tear and overstrain of modern life. Sterility, nervous debility, general and nervous debility, faulty nutrition, premature decay or deficiency of the vital force, impaired vitality, harassing dreams, night disturbances, sudden starting, dimness of sight, defective hearing, loss of memory, inability to perform the various duties of life, or to enjoy its pleasures, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, painful periods, backache, bearing down sensations, nervous headache, wasting disease, night sweats, and all other phases of brain and nerve exhaustion, are successfully combated by this highly scientific preparation. Bracing the system generally, it gives tone to the exhausted nerves, arrests all weakening wasting discharges, involuntary losses, etc.; restores the falling energies, and imparts new life and vigour to what had so recently seemed worn out, "used up," and valueless.

VETARZO BLOOD MEDICINE.

Never before was there anything like it, nor can its marvellous properties ever be equalled in all cases of poorness, impurity, or other imperfection of the blood from whatever cause arising. No sooner is it imbibed into the system than it permeates and penetrates to the minutest capillaries, overcoming and expelling the virus of disease, wherever and in whatever form met with: removing all blotches, pimples, scurf, scurvy, scrofulous and glandular swellings, discolorations, roughness and unsightly patches, &c. Its effects are almost magical in the treatment of gout, rheumatism, sciatica, lumbago, pains and swellings of the joints, discharges, secondary symptoms, eczema, lepra, psoriasis, bad legs, bad humors, abscesses, ulcers, gonorrhea, or Derris-like such, it improves the general health, and quickly removes long-standing bronchitis, asthma, and hacking, husky, spasmodic cough, too often the precursor of consumption.

CAUTION.—Ask for "VETARZO Brain and Nerve Food," or "VETARZO Blood Medicine," whichever is required, and see that you get them, as unprincipled vendors often try to palm off inferior preparations (usually made of adulterated cod-liver oil) for the sake of extra profit. Price in England, 2/6. Every genuine bottle of these medicines bears the British Government Stamp with the words "VETARZO REMEDIES" impressed thereon, in white letters on a red ground, by direction of His Majesty's Hon. Commissioners, Registered Trade Mark "VETARZO." Legal proceedings will be taken against persons pirating.

COMMON SENSE IN A NUTSHELL.—A new medical work on the causes and most scientific and efficient means of cure ever discovered for nervous exhaustion, depression of spirits, want of rest and energy, &c., with practical observations on marriage and full directions for removing certain disqualifications that destroy the happiness of wedded life. It also treats on urinary derangements, secondary symptoms, stricture, &c., and no sufferer should fail to procure a copy. Post free in plain envelope on receipt of postal order, or from THE VETARZO REMEDIES CO., Gospel Oak, London, or of Agents for above medicines. Price 10 pence Post Free.

Agents for India:—TREAHER AND CO., LTD., BOMBAY, BUCKLAND, and POONA.

PARA VENDA.
